

Close Contact / Positive Test Protocol

Updated Spring 2022

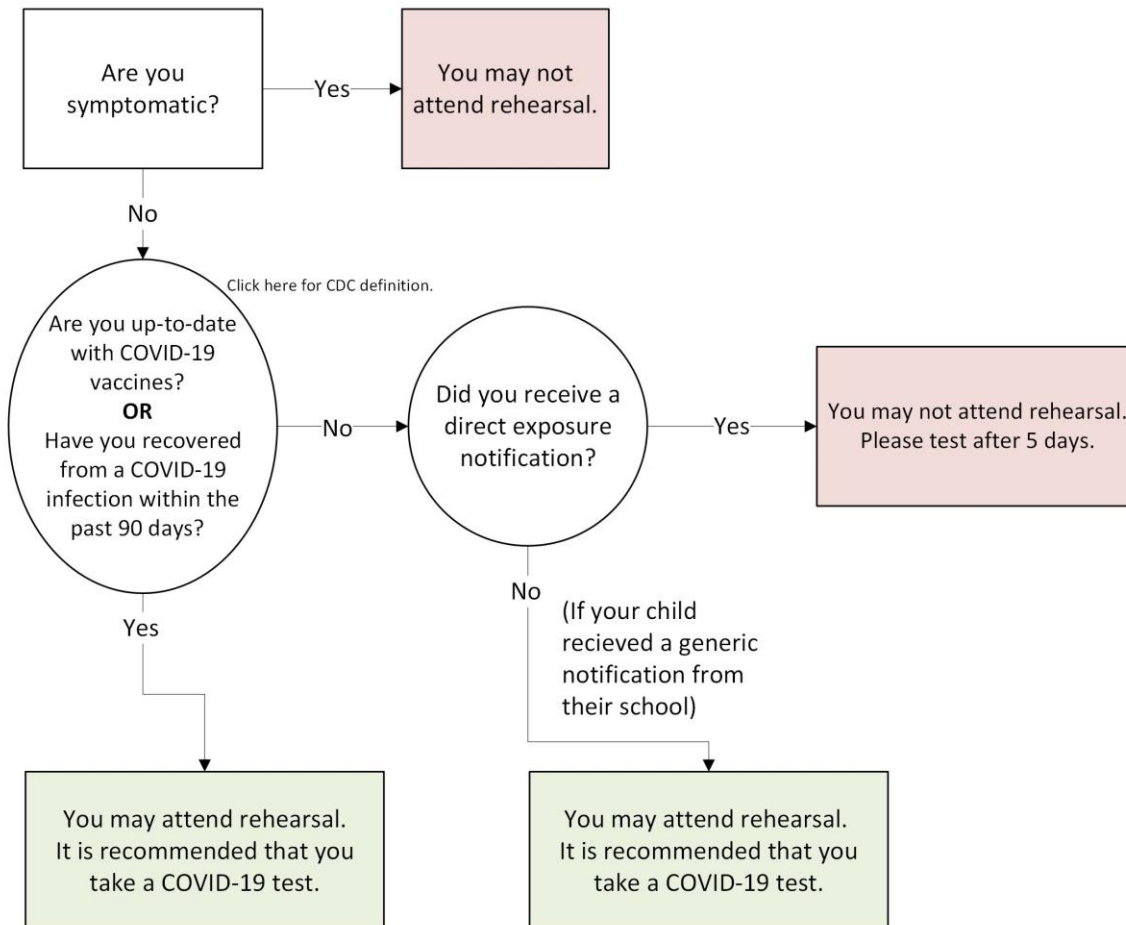

- If singer is symptomatic on the day of rehearsal, regardless of vaccination status, **singer may not attend rehearsal**.
 - If singer's symptoms have improved by the day of rehearsal, and singer is fever free for 24 hours without the aid of medication, **singer may attend rehearsal**.
- If singer has been notified of a "close contact or possible exposure", and singer is asymptomatic:
 - If singer is [up-to-date with COVID-19 vaccines](#), or has recovered from a COVID-19 infection within the past 90 days, **singer may attend rehearsal**. It is recommended that singer takes a COVID-19 test.
 - If singer is not [up-to-date with COVID-19 vaccines](#):
 - And has received a direct exposure notification (from a family member, friend, household member, work or school contact), **singer may not attend rehearsal**.
 - And singer (children/youth) has received a generic possible exposure notification from their school, and has no known direct exposure, **singer may attend rehearsal**. It is recommended that singer takes a COVID-19 test.
- If singer has just tested positive for COVID-19, and it has been less than 5 days since the onset of symptoms, regardless of being symptomatic or not, **singer may not attend rehearsal**. Please [contact Choir Administrator](#) to notify of positive test, if singer has attended a rehearsal in the past two days.
 - After 5 days from onset of symptoms, if singer can produce a negative COVID-19 test, **singer may return to rehearsal**. Singer's symptoms must have improved by the day of rehearsal, and singer must be fever free for 24 hours without the aid of medication. Please [contact Choir Administrator](#) to share negative COVID-19 test before returning to rehearsal.
 - After 5 days from onset of symptoms, if singer cannot produce a negative COVID-19 test, **singer may not return to rehearsal for an additional 5 days**. After 10 days total, Singer's symptoms must have improved by the day of rehearsal, and singer must be fever free for 24 hours without the aid of medication.

** Someone is considered symptomatic if they have any of the following: Cough, shortness of breath or difficulty breathing, fever, chills, muscle pain, sore throat, new loss of taste or smell. Other less common symptoms include nausea, vomiting, or diarrhea. Symptoms may appear 2-14 days after exposure to the virus.*

Close Contact

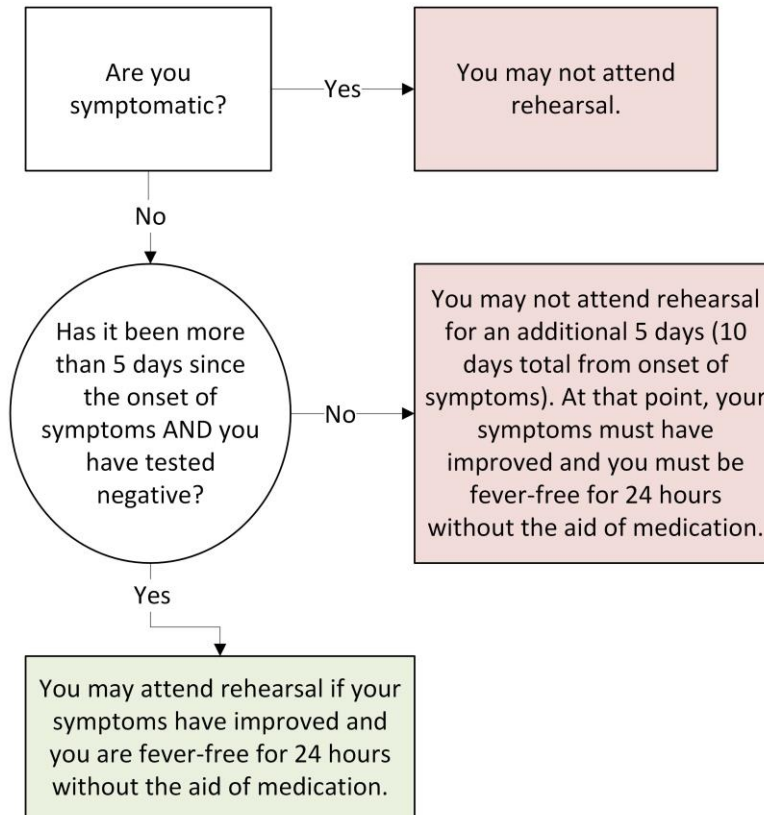

Have you received a notification of close contact from a friend or family member, or from work or school? Please answer the below questions to determine whether you may attend rehearsal or not.

Positive Case

Have you recently tested positive for COVID-19? Please answer the below questions to determine when you may return to rehearsal after your positive test.

Please contact Choir Administrator to notify of positive test, if singer has attended a rehearsal in the past two days.

Please contact Choir Administrator to share negative COVID-19 test before returning to rehearsal.
